Aquatek

Peroxide Sulfur Removal System

Benefits of our Peroxide Sulfur Removal System:

- ◆ Noryl Plastic Constructed Regenerating Control
 - ◆ 5 Year Parts Warranty
 - ◆ Premium Grade Media
 - ◆ Time Clock Regeneration
 - ◆ Bypass Assembly Included
 - ◆ Excellent Flow Rates
 - ◆ 3/4" or 1" Hook-up
- ◆ Stenner Pump—Chemical Injection
 - ◆ For over 50 years, Stenner's time-tested peristaltic chemical injection pump offers consistency.
 - ◆ Easy to change pump tube.
 - ◆ Adjustable external dial ring to control the feed

LCD display alternates between time of day, volume remaining or days till regen and tank in service.

The Peroxide Sulfur Removal System injects 7% Hydrogen Peroxide (H_2O_2) into your water (H_2O) to remove the sulfur (hydrogen sulfide H_2S), "rotten egg" odor, from your water. The hydrogen peroxide oxidizes the hydrogen sulfide and eliminates the sulfur in your water.

This proven system requires short contact time and the reaction is immediate, even for excessive amounts of sulfur.

NOTE: Additional plumbing considerations must be made if there will be any faucets or spigots piped in before the filter tank.
